Habitat Management Program (HMP)

FOR OFFICE USE ONLY:

Version # _____

APP # 700334

PART 1 - ITEM 1. DETERMINE THE NEED FOR FULL FULL HABITAT MANAGEMENT PROGRAM (HMP)

All Applicants submitting Projects involving Ground Disturbing Activities are subject to HMP requirements. The HMP must cover the combined Project Area of all proposed Projects with Ground Disturbing Activities.

Applicants able to certify that none of the proposed activities listed in the Application in areas open to legal OHV Recreation contain any risk factors to special-status species and/or sensitive habitats shall submit only HMP Part 1. Applicants who cannot certify that the proposed activities listed in the Application in areas open to legal OHV Recreation do not contain any risk factors to special-status species and/or sensitive habitats shall submit HMP Parts 1 and 2.

1. Do any of your proposed projects involve Ground Disturbing Activities? (Please select Yes or No) ☐ Yes ☒ No
2. Can the Applicant certify that none of the proposed Projects with Ground Disturbing Activities in areas open to legal OHV Recreation contain any risk factors to special-status species and/or sensitive habitats? (If you checked 'Yes', you are done with HMP) (Please select Yes or No) ☐ Yes ☐ No

A. Public Notification Efforts

Check all that apply: (Please select applicable values)

- ☐ Notice to interested Parties/Groups (Enter date in mm/dd/yyyy format)
- ☒ Published on Applicant's Website (Enter date in mm/dd/yyyy format) [02/10/2010]
- ☐ Published in Newspaper
- ☒ News Release Issued
- ☒ Public Meeting(s) Hearing(s) Held

B. Public Comments

Feedback from at the public meeting included volunteer efforts, GPSing trails, trail maintenance and soil compaction, and the need for additional law enforcement in the evening and night time to prevent the vandalism, shooting in the campground, and other alcohol related issues.

Feedback from the public via the California State Parks OHMVR webpage includes full support, cost of restroom maintenance, the need for an additional webcamera due to vandalism, improving signing, and unreasonable labor expenses.

Feedback from California State Parks OHMVR includes labor expenses/costs, the need for LE dispatch, corresponding narratives to questions, and compliance with soils plans.

C. Application Development as a result of Public Comments

- a. Were changes made to the Application as a result of public comments? (Please select ☒ Yes ☐ No Yes or No)

- b. Describe how public comments affected the Application

Labor expenses identify the actual expenses of the OHV program in the Ukiah Field Office. Most other offices manage one OHV area where as the Ukiah office has two areas - South Cow Mountain and Knoxville. Management challenges include the fact that these areas are not contiguous (1 1/2 hour drive apart) and have rugged terrain. The public's interest in curbing the night time vandalism resulted in the additional request of Sheriff's Deputy patrols as it is unrealistic to expect the BLM LE Rangers to work 19 hour shifts. The webcamera request was removed with the idea that the night time patrols will help prevent vandalism to the webcamera. The restroom maintenance is the actual cost from about 3 years ago and anticipating that fuel costs have decreased even though general business expenses (insurance, DMV fees, supplies, etc) have increased. Trail maintenance relating to soil management will be addressed in the soils plan currently in progress.

1. Applicant Certifications

A. General Conditions

- A. The Applicant hereby certifies, under the penalty of perjury, compliance with the following terms and conditions: ☒
1. If the Project involves a Ground Disturbing Activity, the Applicant agrees to monitor the condition of soils and wildlife in the Project Area each year in order to determine whether the soil conservation standard adopted pursuant to Public Resource Code (PRC), Section 5090.35 and the HMP prepared pursuant to Section 5090.53(a) are being met.
 2. If the Project involves a Ground Disturbing Activity, the Applicant agrees that, whenever the soil conservation standard adopted pursuant to PRC Section 5090.35 is not being met in any portion of a Project Area, the recipient shall close temporarily that noncompliant portion, to repair and prevent accelerated erosion, until the same soil conservation standard adopted pursuant to PRC Section 5090.35 is met.
 3. If the Project involves a Ground Disturbing Activity, the Applicant agrees that, whenever the HMP prepared pursuant to PRC Section 5090.53(a) is not being met in any portion of a Project Area, the recipient shall close temporarily that noncompliant portion until the same HMP prepared pursuant to PRC Section 5090.53(a) is met.
 4. The Applicant agrees to enforce the registration of off-highway motor vehicles and the other provisions of Division 16.5 (commencing with Section 38000) of the Vehicle Code and to enforce the other applicable laws regarding the operation of off-highway motor vehicles.
 5. The Applicant agrees to cooperate with appropriate law enforcement entities to provide proper law enforcement at and around the Facility.
 6. The Applicant's Project is in accordance with local or federal plans and the strategic plan for OHV Recreation prepared by the OHMVR Division.

B. Programmatic Conditions

B. The Applicant must describe the following programmatic conditions:

1. Identify the potential for the facility to reduce illegal and unauthorized OHV Recreation activities in the surrounding areas:

By providing a OHV recreation area, South Cow Mtn and Knoxville has a high potential of reducing illegal and unauthorized OHV recreation activities in the surrounding areas. Law enforcement as well as outreach and volunteer efforts provides the opportunity for positive discussion about OHV activities in designated areas and deter negligent behavior.
2. Describe how the Applicant is meeting the operations and maintenance needs of any existing OHV Recreation Facility under its jurisdiction:

Operations and maintenance needs are met through a combination of Ukiah Field office staff, contracts and volunteers (club members and non-club affiliated individuals). Volunteer hours for fiscal year 2009 are about 300 hours within the OHV areas. Funding for the ongoing maintenance and operational needs of the areas have come from BLM appropriated funding and California State Parks OHV trust fund grants.

C. Fee Collection

Describe how fees collected pursuant to Section 38230 of the Vehicle Code (in-lieu funds) are utilized and whether the fees complement the Applicant's proposed Project:

D. Compliance with PRC 5090.50(b)(1)(C)

Projects within the O&M category that affect lands identified as inventoried roadless areas by the U.S. Forest Service, are compliant with PRC 5090.50(b)(1)(C). (Please select Yes or No)

7. Prevention of OHV trespass - Patrol (Page 2)

- b. The majority of OHV Opportunity areas are patrolled (Check the one most appropriate) 5

(Check the one most appropriate) (Please select one from list)

☒ At least 5 days per week (5 points)

☐ At least once per week (3 points)

☐ At least once per month (1 point)

☐ Less than once per month (No points)

Explain patrol efforts (e.g., frequency of patrol, patrol personnel, percent of lands covered by patrols)

Four (4) access locations, two (2) staging areas, three (3) campgrounds, and two overflow parking areas are patrolled on both weekends and weekdays by BLM Law Enforcement Rangers, BLM Special Agents, and non-law enforcement BLM staff. In addition, Napa County Sheriff's Deputies and BLM LE Rangers patrol the roads and trails throughout the areas. Due to rugged terrain, thick vegetation and lack of signs of intrusions, not all lands/acres are patrolled nor need to be for OHV use.

7. Prevention of OHV trespass - Measures (Page 3)

(Check all that apply) (Please select applicable values)

☒ Barriers and/or signing are used to prevent OHV trespass into neighboring properties and/or closed areas (3 points)

☒ Education programs, maps and/or brochures provided to the public address OHV trespass, including respect for private property (2 points)

Explain measures utilized to prevent OHV trespass into neighboring properties and/or closed areas

In addition to ongoing patrols, strategic placement of six (6) gates, two major boulder barriers, several sections of pipe and cable barriers, and several sections of fencing has been installed to prevent trespass onto adjacent private property, inholdings, and closed areas. Carsonite signs are also placed at these locations. These are routinely patrolled by BLM Law Enforcement Rangers and non-law enforcement staff. The visitors map (to be revised under planning grant awarded in 2008/2009) depicts the recreation area boundaries, the private inholdings within the recreation areas, and emphasizes the need for users to respect private property. County fairs, earth day events, other events and during telephone or field contacts provide opportunities to personally educate the public about the OHV riding areas.

8. OHV Education

Does the Land Manager maintain a management information system managed by qualified environmental staff that identifies and monitors the impacts of the OHV activity and contains at least the following:

- Ongoing survey/inventory of species
- Ongoing survey/inventory of archeological sites
- Biological monitoring that measures changes in populations
- Components that evaluate the effects of OHV recreation and related activity on the species;
- Recommendations for improvement in species management
- Strategies to respond to changing conditions that affect the survival or reproduction of species? (Please select one from list)

- ☐ No (No points) ☒ Yes (5 points)

Reference Document

Surveys and inventory (areas and/or specific sites) are maintained in the GIS database (Cultural Inventory Geodatabase). Two cultural inventory reports have been completed (Norris Trail and Cow Mtn Recreation Area Inventory). For cultural resources, specific and more in depth analysis records are confidential and maintained by the office archaeologist. LE patrol logs report resource damage to operations staff for repair. Environmental documentation (NEPA documents Sawmill Enduro SRP, Mendo-Lake Road Project, and NorthBay Dual Sport SRP) identify resource issues and follow up monitoring. Onsite inspections are also conducted as part of the environmental analysis and review. Staff explore projects and funding opportunities (internal and external sources) to conduct more site specific analysis, inventories and surveys. The Cow Mtn Plan (currently in progress) will describe more indepth monitoring and strategies for management.

12. Soil Management

- b. Land Manager has developed methods to address soil issues? 5

(Check the one most appropriate) (Please select one from list)

☐ No (No points)

☒ Yes (5 points)

Explain 'Yes' response Trail tread soil issues are addressed by implementation of a 3-year rotational trail maintenance schedule. Staff also responds to feedback from users and staff on trail conditions that need immediate attention due to weather or other factors. Currently methodology for evaluating closure of South Cow is based on precipitation and time. Site inspection by staff is conducted to determine the reopening of the area. Soil monitoring plan is to be completed and incorporated in the Cow Mtn plan (OHV grant from 2008/2009).
